

AFFIRM THE AFFIRMATIVE!

I like to combine the **affirmation** and the **visualization** at the same time. Picture the situation and then repeat your affirmation out loud.

After repeating affirmations about who you are and what you will achieve, you begin to feel the confidence and self-assurance that is necessary to obtain your goal.

You will have expelled the fears, anxieties and self doubts which kept you from fulfilling your goals in the past. In addition, in a way you couldn't totally explain, you will also find the way or "method" to reach your goal.

Affirmations simply release the creative power that you haven't before put to use. You find yourself developing new ways of obtaining results.

HERE ARE SOME MORE POSITIVE AFFIRMATIONS THAT SUGGEST ACTIONS AND SUGGEST RESULTS:

2. *I organize my efforts today for tomorrow and the future.*
3. *I work at all times with my goals in mind.*
4. *I plan ahead to get ahead.*
