

Can't Never Did Anything!

I remember many years ago when my youngest son Billy was approximately 9 years old. We were walking through the woods. I simply told him, "You can't go that way!" because it appeared from my perspective that you couldn't. However, Billy was in front of me and could see the clearing ahead.

He simply threw back the statement, "Can't never did anything! Follow me, and I'll show you the way!"

I had recited this statement to him with spaced repetition:

"Can't never did anything!"

So, even at an early age it was a part of his life. Billy simply developed and lives his life with an "I CAN" attitude!

*And each and every one of you can do exactly the same thing!
You can choose to accentuate the positive and eliminate the negative in your personal life and in your business life!*

More to come . . .
